

2018 IBM Systems AI Technical University

15 – 17 May | London, UK

IBM Cognitive Systems
IBM Software Defined Infrastructure

Eligible Business Partner Vouchers:

- PGI (80%)
- Competency (100%)

Brought to you by
IBM Systems Lab Services

TechU

AI solutions are set to transform the world in dramatic ways. Data scientists, solutions consultants and IBM engineers are building scalable AI models with new capabilities and tools. You can learn how at IBM AI Technical University (AI TechU).

These experts will share deep technical expertise in applied AI, model tuning, GPUs and distributed systems, workload provisioning and management. You'll find concepts of AI, Machine Learning and Deep Learning along with industry use cases, best practices, development frameworks and industry tools.

Packed with a technical punch

TechU offers focused, in-depth technical training sessions and labs delivered by IBM Distinguished Engineers, developers or product experts. They will share how to:

- Deploy a fully optimized AI platform with IBM PowerAI
- Accelerate ML training with NVIDIA GPU's and IBM POWER9 serve
- Analyze images and videos with IBM AI Vision deep learning ecosy
- Maximize resource utilization with IBM Spectrum Conductor
- Collaborate on AI projects with the IBM Data Science Experience
- Optimize distributed learning models with IBM Deep Impact
- Leverage a high performance file system with IBM Spectrum Scale
- Integrate and manage your AI, Spark and Hadoop big data workloa

Designed for networking

AI TechU is an ideal venue for connecting with your data scientist and big data infrastructure peers, IBM experts and Business Partners. We look forward to see you there.

Overview

IBM Systems Technical University events include technical presentations, skill-building sessions with demos, hands-on labs and a vibrant Solution Center.

What you'll find at an IBM TechU

- **Sharpen your expertise** with technical sessions led by IBM Distinguished Engineers and subject matter experts...the AI-team of the IBM technical community
- **Experience the latest technology** via demos from AI solutions partners
- **Test-drive new products** from IBM and AI solutions partners in the Solution Center
- **Expand your professional network** by connecting with AI industry leaders, data scientists and solutions developers
- **Learn from your peers** via networking sessions and discussions on real-world AI challenges and successes

Who should attend?

This conference is intended for clients, IBM Business Partners and IBM employees:

- Data Scientists and Developers
- AI Solutions Consultants
- Big Data Infrastructure and Storage Managers
- Machine Learning Managers
- IT Executives & Business Managers
- IBM Business Partners
- IT Professionals seeking an Introduction to AI

IBM TechU features technical skill-building sessions that appeal to attendees who share a technical vision and curiosity. IBM TechU offers technical breakout sessions, roundtables, demos, and more.
